Semi-Opaque

The Koh-I-Noor® Special Drawing Ink is a short range of highly pigmented colors with rich undertones that can be used on paper or film. This professional grade drawing ink is available in a 1 oz bottle with a flip up spout that allows for easy measuring and dispensing of ink for mixing ratios and for filling technical and drawing pens.

Micro-pulverized pigments are evenly dispersed in an acrylic base, making colors more lightfast than dye-based inks. These inks are semi-transparent and water resistant. They can be used with technical pens, air-brushes, crowquill pens, and paint brushes. Shake well before use as pigments may settle out over time.

Printed swatches may not be a true representation of the actual color.
