Shape: Hexagonal

Core: Extra Large Multi-colored Braided Leads

A childhood favorite, the Magic FX® pencil was the first multi-colored pencil with braided leads of bright, contrasting colors. With every stroke the unique mosaic lead puts down a kaleidoscope of color. The Neon pencil also adds an additional fluorescent effect under UV light. Magic FX® pencils are big and chunky and boast a 5.6mm lead. Each pencil has a hand dipped casing indicating the colors of the leads.

Printed swatches may vary by monitor and printer, and may not be a true representation of the actual color.
